

Invisible.AC installation including our designed and manufactured 25mm slots – Cedar Suite, The Grove – Luxury Hotel and Spa, Chandler's Cross, Hertfordshire UK

invisible.ac
air jet comfort

the fully engineered
air conditioning solution

No air turbulence in the conditioned space

Uniquely Comfortable

- Even temperature with no air turbulence
- Quiet (as low as NR20)
- Responsive, instant climate control

Above: Invisible.AC – Air speed CFD Plot

Discreet Design

- Inconspicuous air-jet delivery
- 25mm linear slots or small round outlets
- An interior designers dream

Left: Invisible.AC 25mm horizontal wall slot (Residential use)
Right: Invisible.AC 25mm horizontal wall slot (Residential use)

No hot or cold spots in the conditioned space

24C consistent temperature

Flexible Installation

- Space-saving mini-ducts (fits 150mm ceiling void)
- Touch sensitive room controllers
- Ideal for new-build or heritage properties
